

Choose American Red Cross Training for a Better Prepared, Safer Workplace

Organizations that choose the American Red Cross for their education and training programs get outstanding, flexible training programs that meet their needs. Every year, the Red Cross provides resuscitation and preparedness training to more than 4.8 million people. You can be confident that Red Cross courses align with the latest evidence-based science, backed by our Scientific Advisory Council.

With the Red Cross, you get a complete selection of training services and materials to create the right program for your organization. You also get the personal service and attention that only the Red Cross can provide.
